PEERLESS TRADE MARK

## SPECIAL NOTICE

To insure prompt shipments, order by number and specify kind of wood and finish wanted, also linings, Copper, Lead or Zinc.

## CONDITIONS

Our responsibility ceases when delivery is made at railroad station or wharf in our city and receipt taken for same.

We guarantee that the packing is carefully inspected and that all goods are well packed by experienced men.

All goods are carefully tested and inspected. But as it is not always possible to detect imperfection, the only guarantee given is to replace such goods as prove defective. In case of defect the measure of damage is the price of the defective part.

Goods returned will not be accepted by us unless previous arrangements have been made.

Claims for corrections or deduction must be made within ten days after receipt of goods.

Contracts are subject to delays caused by strikes, accidents or other causes beyond our control.

All correspondence and orders should be addressed to the firm to insure prompt attention. All contracts are subject to approval of the Home Office.

THE PEERLESS SELLING CO.,
Evansville, Indiana.

---

We fill all orders with No. 28 bowl unless otherwise specified.

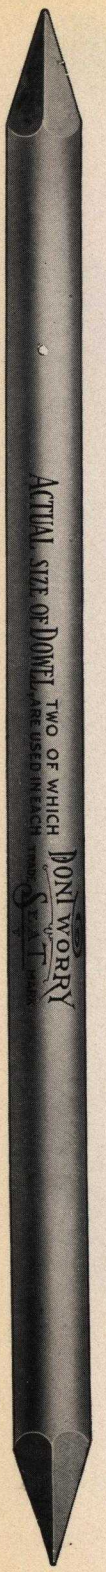
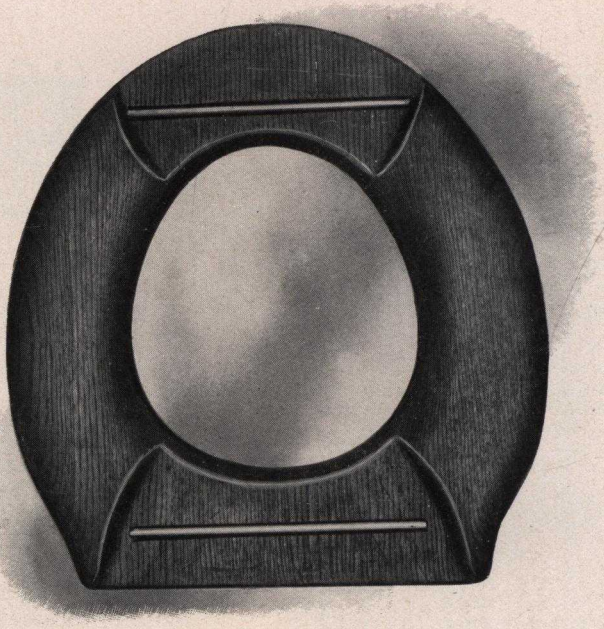
Approximate weight, packed
Bowl 50 lbs.
Tank 45 lbs.
Seat 10 lbs.
Trimmings 10 lbs.





Patent No. 840342. Issued January 1, 1907

## *"DON'T WORRY" SEAT*

Of course it is needless to tell you practical plumbers the merits of the "Don't Worry" Seat, because the picture tells the story. Being made of two pieces of wood bored each way from the center, the dowels are forced into position (as shown) by hydraulic pressure to glue joints. Hence, the dowels (catching all short grains of wood) placed in position in this manner make the STRONGEST SEAT ON THE MARKET WITHOUT MARRING ITS APPEARANCE.

PEERLESS TRADE MARK

## *C-68 "DON'T WORRY" SEAT*

List price as shown and described.....$6.90

1¼ in. Saddled Seat with panel cover. Select Quarter Sawed Oak, with No. 2 heavy pattern brass hinge.

PEERLESS TRADE MARK

PATENTS PENDING

## *The Close Roughing-In Hinge*

Extra to list for this device on C 68, C 69, C 72, C 73, C 74, C 201½ and C 202 ..... **$0.50**

Extra to list for this device on C 22, C 63, C 64, C 65, C 67, C 72½, C 201 and C 202½ ..... **$1.50**

This will allow the seat and cover to stand 2 inches further from the tank than our standard hinges to accommodate a close roughing-in measurement.

When the seat cover is raised and resting against the face of tank, the raising or lowering of seat does not move the cover, as the seat is independent of the cover.

# NOTICE

## Roughing-in Measurements

We can rough-in closets from 8½ to 19 in.

All tanks, Wood or Vitreous, have same measurements as to location of holes for flush valves and ball cocks.

Owing to variation in shrinkage of Vitreous ware, measurements may vary from ¼ to ½ in.

Any tank with any bowl can be roughed-in 2 in. further back by using our Close Roughing-in Hinge. See page 76.

Our standard elbow is 6 x 5 in. on centers; the 6 in. end should connect to flush valve; by reversing the elbow, the bowl can be set 1 in. further out.

## Roughing-in for Syphon Jet

We furnish regularly 2 in. offset but we can, however, rough-in at 11, 12, 12½, 13, 13½, 14, 14½, and 15 in by supplying offset of proper measurement.

TRADE
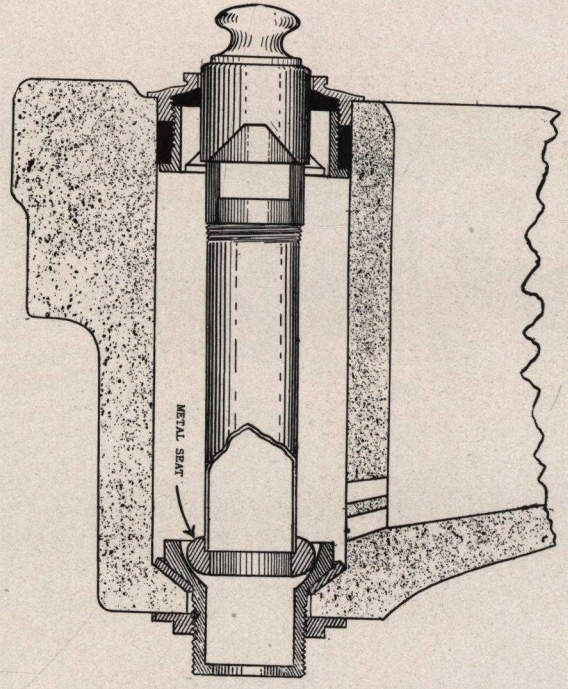
the PEERLESS
MARK
VITREOUS
LAVATORIES



The above cut illustrates our PEERLESS INTEGRAL WASTE. There is really no comment to make on this waste, as its simplicity, economy and sanitary features can be readily seen.

**FIRST**

The PEERLESS WASTE is a part of the Lavatory, dispensing with many joints as in other wastes at less cost.

**SECOND**

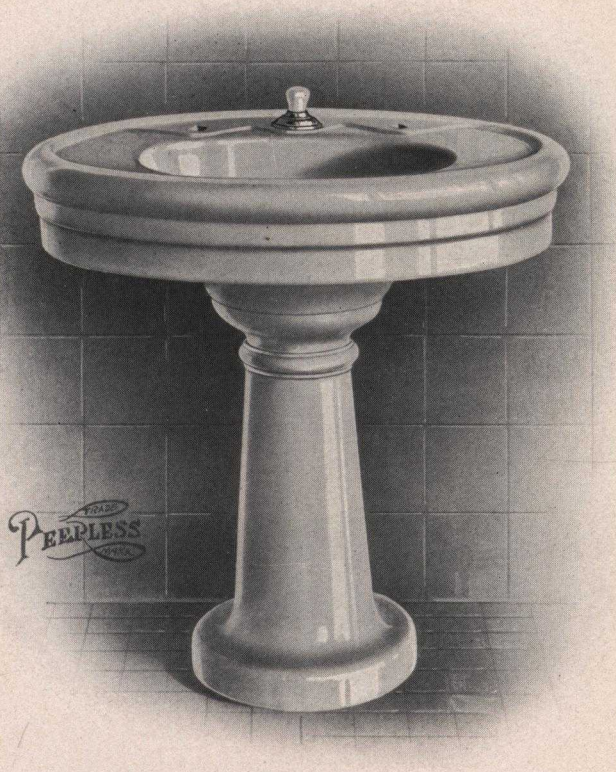
Strictly Sanitary for the reason that by lifting out the waste plunger the entire inner surface of the Integral Waste can be easily cleaned.

**THIRD**

This PEERLESS WASTE, constructed as it is, is less expensive than a lavatory and an all Metal Waste.

**FOURTH**

We can furnish on order any lavatory for pop-up, standing waste or metal plug and patent overflow.



## *C-500*
